**FORM ADV PART 2
BROCHURE**

This Brochure provides information about the qualifications and business practices of Gerber Kawasaki Wealth & Investment Management. If you have any questions about the contents of this Brochure, please contact us at 310.399.6397. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Gerber Kawasaki Wealth & Investment Management is also available on the SEC's website at www.adviserinfo.sec.gov. The searchable IARD/CRD number for Gerber Kawasaki Wealth & Investment Management is 153649.

Gerber Kawasaki Wealth & Investment Management is a registered investment adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Item 2 Summary of Material Changes

Form ADV Part 2 requires registered investment advisers to amend their brochure when information becomes materially inaccurate. If there are any material changes to an adviser's disclosure brochure, the adviser is required to notify you and provide you with a description of the material changes.

Since our last annual updating amendment, dated February 8, 2016, we have made the following material changes to our Form ADV:

- We have updated our brochure to disclose that Gerber Kawasaki, Inc. primarily conducts advisory business under the name Gerber Kawasaki Wealth & Investment Management.
- We have updated our brochure to disclose our advisory firm's additional websites. Please refer to the cover page of this brochure.
- Portfolio Management Services are now referred to as Wealth Management Services.
- We have updated the *Wealth Management* section to include disclosure information on our Wealth Building Program and the LPL Financial Sponsored Advisory Programs that are now offered through our Wealth Management Services. For additional information on these programs and the fees associated with each program, refer to Item 4 and Item 5.
- Our brochure has been updated to disclose that we may receive economic benefits in the form of sponsorships and/or marketing reimbursements from non-affiliated third-parties. Additionally, we have disclosed that through the normal course of our business, we have received forgivable loans from our broker-dealer. For more information on these topics, refer to Item 14.

Item 4 Advisory Business

Description of Services and Fees

Gerber Kawasaki Wealth & Investment Management is a registered investment adviser based in Santa Monica, California. We are organized as a corporation under the laws of the State of California. We have been providing investment advisory services since 2010. Ross M. Gerber and Danilo Kawasaki are our principal owners. Currently, we offer the following investment advisory services, which are personalized to each individual client:

- Wealth Management Services
- Financial Planning
- Selection of Other Advisers
- Pension Consulting Services

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this Brochure, the words "we", "our" and "us" refer to Gerber Kawasaki Wealth & Investment Management and the words "you", "your" and "client" refer to you as either a client or prospective client of our firm. Also, you may see the term Associated Person throughout this Brochure. As used in this Brochure, our Associated Persons are our firm's officers, employees, and all individuals providing investment advice on behalf of our firm.

Wealth Management Services

We provide discretionary and non-discretionary continuous asset management and investment advisory services. Our investment advice is tailored to meet our clients' needs and investment objectives. If you retain our firm for wealth management services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information (the "suitability information") at the beginning of our advisory relationship. We will use the suitability information we gather to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. Once we construct an investment portfolio for you, we will monitor your portfolio's performance on an ongoing basis, and will recommend portfolio rebalancing as required by changes in market conditions and in your financial circumstances.

If you participate in our discretionary management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow us to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm and the appropriate trading authorization forms. In our sole discretion, we may allow you to limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. If you enter into non-discretionary arrangements with our firm, we must obtain your approval prior to executing any transactions on behalf of your account.

Associated Persons of our firm will conduct an initial interview with you during which a data-gathering questionnaire will be undertaken to determine your financial situation and investment objectives. This questionnaire will lead to the design of a model appropriate for your financial needs, time horizon, risk tolerance and investment objectives. Recommendations will be made to invest in a portfolio of securities, generally no load mutual funds or load mutual funds available at NAV, stocks, bonds, and other appropriate investments. Reviews will be at least annually.

Wealth Building Program

As part of our wealth management services, we have created a wealth building program for investors with less than \$250k in investable assets. The program is designed to be an asset accumulation program that allows clients with any asset base to get started with the help of a dedicated investment advisor. Through the Program, we offer a free initial financial consultation as well as a complementary portfolio review and analysis either online or in person. After the initial consultation and review, we offer the client a full service implementation plan through either our standard wealth management services or through our automated portfolio management services, which is offered through LPL's Guided Wealth Portfolios ("GWP").

For a \$250 fee, we set up all investment accounts and implement the financial plan as created with the client. This could entail opening several retirement and non-retirement accounts, as well as providing life insurance for family protection. If you choose to participate in our standard wealth management services, our ongoing supervisory services will cost 1.50% per annum, based on the value of the assets managed. If you choose to participate in the automated portfolio management services through GWP, the ongoing supervisory services will cost 1.35% per annum, based on the value of the assets managed. For clients participating in the GWP program, while you are partnered with a dedicated advisor, you also have access to all the online tools provided in the GWP program (see below for more information). For example a client investing \$20,000 would pay a \$250 one time membership/start up fee and either 1.50% or 1.35% of the \$20,000 investment (\$300 or \$270) per year for access to the dedicated advisor and the financial guidance we provide. Our wealth building program also, has an option for 30 minute consultations for clients with limited needs like a 401k allocation review or to discuss college planning for \$50 per consultation. The goal of the wealth building program is to help clients grow their assets and build the base of their financial plan. Upon reaching \$250k in assets, clients can request to be upgraded to our wealth management program.

Guided Wealth Portfolios (GWP)

GWP offers clients the ability to participate in a centrally managed, algorithm-based investment program, which is made available to users and clients through a web-based, interactive account management portal ("Investor Portal"). Investment recommendations to buy and sell open-end mutual funds and exchange-traded funds are generated through proprietary, automated, computer algorithms (collectively, the "Algorithm") of Xulu, Inc., doing business as FutureAdvisor ("FutureAdvisor"), based upon model portfolios constructed by LPL and selected for the account as described below (such model portfolio selected for the account, the "Model Portfolio"). Communications concerning GWP are intended to occur primarily through electronic means (including but not limited to, through email communications or through the Investor Portal), although Gerber Kawasaki Inc. will be available to discuss investment strategies, objectives or the account in general in person or via telephone.

A preview of the Program (the "Educational Tool") is provided for a period of up to forty-five (45) days to help users determine whether they would like to become advisory clients and receive ongoing financial advice from LPL, FutureAdvisor and Gerber Kawasaki Inc. by enrolling in the advisory service (the "Managed Service"). The Educational Tool and Managed Service are described in more detail in the GWP Program Brochure. Users of the Educational Tool are not considered to be advisory clients of LPL, FutureAdvisor or Gerber Kawasaki Inc., do not enter into an advisory agreement with LPL, FutureAdvisor or Gerber Kawasaki Inc., do not receive ongoing investment advice or supervisions of their assets, and do not receive any trading services.

A minimum account value of \$5,000 is required to enroll in the Managed Service.

Features of the Educational Tool

Users of the Educational Tool (each, a "user") agree to a terms of use ("Terms of Use") and completes an investor profile. An investment objective ("Investment Objective") and Model Portfolio is assigned to each user based upon factors in the investor profile, including risk tolerance and the number of years remaining until the age of retirement (such time being referred to herein as the "Retirement Age"). (See description in "Features of the Managed Service" below for information regarding the design of the Model Portfolios.) Based on the Investment Objective and Model Portfolio, the Educational Tool generates sample analysis, advice and investment recommendations ("Sample Recommendations").

The Educational Tool provides Sample Recommendations that may assist users in determining whether to utilize the Managed Service. Access to the Educational Tool is limited to a period of forty-five (45) days. The Educational Tool is intended to be used for educational and informational purposes only. The Educational Tool does not provide comprehensive financial planning and is not intended to constitute legal, financial or tax advice. There may be other relevant factors and financial considerations (e.g., debt load or financial obligations) that LPL, FutureAdvisor and Gerber Kawasaki Inc. do not take into consideration in formulating any Sample Recommendations provided. The Sample Recommendations made are meant solely as a sample of the types of recommendations available through the Managed Service. LPL, FutureAdvisor and Gerber Kawasaki Inc. are not responsible for any actions taken with respect to the Sample Recommendations, and users are solely responsible for making their own investment decisions. The Educational Tool is only one of many tools that users may use as part of a comprehensive investment analysis process. Users should not rely on the Educational Tool as the sole basis for investment decisions.

Although LPL is an investment adviser and broker-dealer registered with the SEC and a member of the Financial Industry Regulatory Authority, and FutureAdvisor is an investment adviser registered with the SEC, in providing access to the Educational Tool, LPL, FutureAdvisor and Gerber Kawasaki Inc. do not intend to establish an advisory relationship, or in the case of LPL, a brokerage relationship, with users of the Educational Tool. Users are not charged an advisory fee or any other fee or expense to use the Educational Tool. The scope of any investment advisory relationship with LPL, FutureAdvisor and Gerber Kawasaki Inc. begins when users enroll in the Managed Service. The output that users receive by using the Educational Tool, including the Sample Recommendations, may differ materially from the advice users would receive as an advisory client of LPL, FutureAdvisor and Gerber Kawasaki Inc.

None of LPL, FutureAdvisor or Gerber Kawasaki Inc. provides ongoing investment management or trading services for assets of users of the Educational Tool, makes any determination as to whether the website through which the Program is accessed or the Educational Tool is appropriate for any user, can access any assets in any accounts users aggregate in the Educational Tool, places any trades on behalf of users of the Educational Tool, or provides ongoing supervision of assets of users of the Educational Tool. The Sample Recommendations provided are intended as an informational preview of the Managed Service, and the Sample Recommendations are being provided to demonstrate the types of analysis, advice and recommendations provided by the Managed Service.

Features of the Managed Service

Investors participating in the Managed Service (each, a "client") complete an account application (the "Account Application") and enter into an account agreement (the "Account Agreement") with LPL, Gerber Kawasaki Inc. and FutureAdvisor. As part of the account opening process, clients are responsible for providing complete and accurate information regarding, among other things, their age, risk tolerance, and investment horizon (collectively, "Client Profile"). LPL, Gerber Kawasaki Inc. and FutureAdvisor rely on the information in the Client Profile in order to provide services under the Program, including but not limited to, determination of suitability of the Program for clients and an appropriate Investment Objective and Model Portfolio for clients. The Model Portfolios have been

designed and are maintained by LPL or, in the future, a third-party investment strategist (as applicable, the "Portfolio Strategist") and shall include a list of securities holdings, relative weightings and a list of potential replacement securities for tax harvesting purposes. None of the clients, Gerber Kawasaki Inc. or FutureAdvisor can access, change or customize the Model Portfolios. Only one Model Portfolio is permitted per account.

Based upon a client's risk tolerance as indicated in the Client Profile, the client is assigned an investment allocation track (currently Fixed Income Tilt, Balance Tilt or Equity Tilt), the purpose of which is to slowly rotate the client's equity allocation to fixed income over time. LPL Research created these tracks using academic research on optimal retirement allocations, the industry averages as calculated by Morningstar for the target date fund universe, and input from FutureAdvisor. Within the applicable allocation track and based upon a client's chosen Retirement Age in the Client Profile, the client will be assigned a Model Portfolio and one of five of LPL's standard investment objectives:

- *Income with capital preservation.* Designed as a longer term accumulation account, this investment objective is considered generally the most conservative. Emphasis is placed on generation of current income with minimal risk of capital loss. Lowering the risk generally means lowering the potential income and overall return.
- *Income with moderate growth.* This investment objective emphasizes generation of current income with a secondary focus on moderate capital growth.
- *Growth with income.* This investment objective emphasizes modest capital growth with some focus on generation of current income.
- *Growth.* This investment objective emphasizes achieving high long-term growth and capital appreciation. There is little focus on generation of current income.
- *Aggressive growth.* This investment objective emphasizes aggressive growth and maximum capital appreciation, with no focus on generation of current income. This objective has a very high level of risk and is for investors with a longer timer horizon.

Both the client and Gerber Kawasaki Inc. are required to review and approve the initial Investment Objective. As a client approaches the Retirement Age, the Algorithm will automatically adjust the client's asset allocation. Any change to the Investment Objective directed by a client due to changes in the Client's risk tolerance and/or Retirement Age will require written approval from the client and Gerber Kawasaki Inc. before implementation. Failure to approve the change in Investment Objective may result in a client remaining in a Model Portfolio that is no longer aligned with the applicable Client Profile. The Investment Objective selected for the account is an overall objective for the entire account and may be inconsistent with a particular holding and the account's performance at any time and may be inconsistent with other asset allocations suggested to client by LPL, Gerber Kawasaki Inc. or FutureAdvisor prior to client entering into the Account Agreement. Achievement of the stated investment objective is a long-term goal for the account, and asset withdrawals may impair the achievement of client's investment objectives. A Client Profile that includes a conservative risk tolerance over a long-term investment horizon may result in the selection of an Investment Objective that is riskier than would be selected over a shorter-term investment horizon. Clients should contact Gerber Kawasaki Inc. if they believe the Investment Objective does not appropriately reflect the Client Profile, such as their risk tolerance.

By executing the Account Agreement, clients authorize LPL, Gerber Kawasaki Inc. and FutureAdvisor to have discretion to buy and sell only open-end mutual funds ("Mutual Funds") and exchange-traded funds ("ETFs") (collectively, "Program Securities") according to the Model Portfolio selected and, subject to certain limitations described in the Account Agreement, hold or liquidate previously purchased non-model securities that are transferred into the account ("Legacy Securities"). In order to be transferred into an account, Legacy Securities must be Mutual Funds with which LPL has a full or

partial selling agreement, ETFs or individual U.S. listed stocks. Securities that are not Program Securities included within the Model Portfolio will not be purchased for an account, and FutureAdvisor, in its sole discretion, will determine whether to hold or sell Legacy Securities, generally, but not solely, with the goal of optimizing tax impacts for accounts that are subject to tax. Additional Legacy Securities will not be purchased for the account. Clients may not impose restrictions on liquidating any Legacy Securities for any reason. Clients should not transfer in Legacy Securities that they are not willing to have liquidated at the discretion of FutureAdvisor.

In addition, uninvested cash may be invested in money market funds, the Multi-Bank Insured Cash Account ("ICA") or the Deposit Cash Account ("DCA"), as applicable, as described in the Account Agreement. Dividends paid by the Program Securities in the account will be contributed to the cash allocation and ultimately reinvested into the account based on the Model Portfolio once the tolerance within cash allocation is surpassed.

Pursuant to the Account Agreement, FutureAdvisor is authorized to perform tax harvesting when deemed acceptable by the Algorithm. None of the clients, Gerber Kawasaki Inc. or LPL can alter trades made for tax harvesting purposes. In order to permit trading in a tax-efficient manner, the Account Agreement also grants FutureAdvisor the authority to select specific tax lots when liquidating securities within the account. Although the Algorithm attempts to achieve tax efficiencies, by doing so the client's portfolio may not directly align with Model Portfolio. As a result, the client may receive advice that differs from the advice received by accounts using the same Model Portfolio, and the client's account may perform differently than other accounts using the same Model Portfolio.

During the term of the Account Agreement, FutureAdvisor will perform a daily review of the account to determine if rebalancing is appropriate based on tolerance thresholds established by LPL and/or FutureAdvisor. At each rebalancing review, the account will be rebalanced if at least one of the account positions is outside such thresholds, subject to a minimum transaction amount established by LPL and/or FutureAdvisor. In addition, LPL and/or FutureAdvisor may review the account for rebalancing in the event that the Portfolio Strategist changes a Model Portfolio. FutureAdvisor may delay placing rebalancing transactions for non-qualified accounts by a number of days, to be determined by FutureAdvisor, in an attempt to limit short-term tax treatment for any position being sold. In addition, trading in the account at any given time is also subject to certain conditions, including but not limited to, conditions related to trade size, compliance tests, the target cash allocation and allocation tolerances. None of the clients, Gerber Kawasaki Inc. or LPL can alter the rebalancing frequency.

Selection of FutureAdvisor as Third-Party Robo Advisor

We reviewed all the major robo advisor firms and chose Future Advisor and LPL for various reasons. First, the investment allocations and recommendations are better aligned with Gerber Kawasaki's investment philosophies and desired allocations. Second, we believe the Future Advisors dedication to serving advisors allows them to better service our clients. We like the financial strength of being owned by a major investment firm versus being a start up firm. We did considerable amount of due diligence to find the best robo advisor for our clients that combined the best client interface, service and portfolio return potential. Under Gerber Kawasaki Inc.'s agreement with LPL, Gerber Kawasaki Inc. was provided the opportunity to offer GWP, which utilizes FutureAdvisor's Algorithm as described herein, to prospective clients. FutureAdvisor is compensated directly by LPL for its services, including the Algorithm and related software, through an annual sub-advisory fee (tiered based on assets under management by FutureAdvisor, at a rate ranging from 0.10% to 0.17%). As each asset tier is reached, LPL's share of the compensation shall increase and clients will not benefit from such asset tiers. No additional fee is charged for FutureAdvisor's services.

Gerber Kawasaki Inc. believes that certain clients will benefit from GWP's advisor-enhanced advisory services, particularly due to the relatively low minimum account balance and the combination of a digital advice solution with access to an advisor. Unlike direct-to-consumer robo platforms, Gerber Kawasaki Inc. is responsible on an ongoing basis as investment advisor and fiduciary for the client relationship, including for recommending the program for the client; providing ongoing monitoring of the program, the performance of the account, the services of LPL and FutureAdvisor; determining initial and ongoing suitability of the program for the client; reviewing clients' suggested portfolio allocations; reviewing and approving any change in Investment Objective due to changes clients make to their Client Profile; answering questions regarding the program, assisting with paperwork and administrative and operational details for the account; and being available to clients to discuss investment strategies, changes in financial circumstances, objectives or the account in general in person or via telephone. Gerber Kawasaki Inc. can also recommend other suitable investment programs if clients have savings goals or investment needs for which GWP is not the optimal solution.

LPL Financial Sponsored Advisory Programs

Gerber Kawasaki Inc. may provide advisory services through certain programs sponsored by LPL Financial LLC (LPL), a registered investment advisor and broker-dealer. Below is a brief description of each LPL advisory program available to Gerber Kawasaki Inc. For more information regarding the LPL programs, including more information on the advisory services and fees that apply, the types of investments available in the programs and the potential conflicts of interest presented by the programs, please see the program account packet (which includes the account agreement and LPL's Form ADV program brochure) and the Form ADV, Part 2A of LPL or the applicable program.

Manager Access Select Program

Manager Access Select provides clients with access to the investment advisory services of professional portfolio management firms for the individual management of client accounts. Advisor will assist client in identifying a third party portfolio manager (Portfolio Manager) from a list of Portfolio Managers made available by LPL. The Portfolio Manager manages client's assets on a discretionary basis. Advisor will provide initial and ongoing assistance regarding the Portfolio Manager selection process.

A minimum account value of \$100,000 is required for Manager Access Select, however, in certain instances, the minimum account size may be lower or higher.

Personal Wealth Portfolios Program (PWP)

PWP offers clients an asset management account using asset allocation model portfolios designed by LPL. Advisor will have discretion for selecting the asset allocation model portfolio based on client's investment objective. Advisor will also have discretion for selecting third party money managers (PWP Advisors), mutual funds and ETFs within each asset class of the model portfolio. LPL will act as the overlay portfolio manager on all PWP accounts and will be authorized to purchase and sell on a discretionary basis mutual funds, ETFs and equity and fixed income securities.

A minimum account value of \$250,000 is required for PWP. In certain instances, LPL will permit a lower minimum account size.

Model Wealth Portfolios Program (MWP)

MWP offers clients a professionally managed mutual fund asset allocation program. Advisor will obtain the necessary financial data from the client, assist the client in determining the suitability of the MWP program and assist the client in setting an appropriate investment objective. The Advisor will initiate the steps necessary to open an MWP account and have discretion to select a model portfolio designed

by LPL's Research Department consistent with the client's stated investment objective. LPL's Research Department or third-party portfolio strategists are responsible for selecting the mutual funds or ETFs within a model portfolio and for making changes to the mutual funds or ETFs selected.

The client will authorize LPL to act on a discretionary basis to purchase and sell mutual funds and ETFs and to liquidate previously purchased securities. The client will also authorize LPL to effect rebalancing for MWP accounts.

MWP requires a minimum asset value for a program account to be managed. The minimums vary depending on the portfolio(s) selected and the account's allocation amongst portfolios. The lowest minimum for a portfolio is \$25,000. In certain instances, a lower minimum for a portfolio is permitted.

Financial Planning Services

We offer broad-based, modular, and consultative financial planning services. Financial planning will typically involve providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. If you retain our firm for financial planning services, we will meet with you to gather information about your financial circumstances and objectives. Once we review and analyze the information you provide to our firm, we may deliver a written plan to you, designed to help you achieve your stated financial goals and objectives.

Financial plans are based on your financial situation at the time we present the plan to you, and on the financial information you provide to our firm. You must promptly notify our firm if your financial situation, goals, objectives, or needs change.

Pursuant to California Code of Regulations, 10 CCR Section 260.235.2, Gerber Kawasaki Wealth & Investment Management hereby makes the following statement: a conflict exists between the interest of Gerber Kawasaki Wealth & Investment Management and the interests of the client. Further, the client is under no obligation to act upon Gerber Kawasaki Wealth & Investment Management's recommendations, and if the client elects to act on any of the recommendations, the client is under no obligation to effect the transactions through Gerber Kawasaki Wealth & Investment Management.

You are under no obligation to act on our financial planning recommendations. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

Selection of Other Advisers

As part of our investment advisory services, we may recommend that you use the services of a third party money manager ("MM") to manage all, or a portion of, your investment portfolio. After gathering information about your financial situation and objectives, we will recommend that you engage a specific MM or investment program. Factors that we take into consideration when making our recommendation(s) include, but are not limited to, the following: the MM's performance, methods of analysis, fees, your financial needs, investment goals, risk tolerance, and investment objectives. We will periodically monitor the MM(s)' performance to ensure its management and investment style remains aligned with your investment goals and objectives.

Pension Consulting Services

We offer pension consulting services to employee benefit plans and their fiduciaries based upon the needs of the plan and the services requested by the plan sponsor or named fiduciary. In general, these services may include an existing plan review and analysis, plan-level advice regarding fund selection and investment options, education services to plan participants, investment performance monitoring,

and/or ongoing consulting. These pension consulting services will generally be non-discretionary and advisory in nature. The ultimate decision to act on behalf of the plan shall remain with the plan sponsor or other named fiduciary.

We may also assist with participant enrollment meetings and provide investment-related educational seminars to plan participants on such topics as:

- Diversification
- Asset allocation
- Risk tolerance
- Time horizon

Our educational seminars may include other investment-related topics specific to the particular plan.

We may also provide additional types of pension consulting services to plans on an individually negotiated basis. All services, whether discussed above or customized for the plan based upon requirements from the plan fiduciaries (which may include additional plan-level or participant-level services) shall be detailed in a written agreement and be consistent with the parameters set forth in the plan documents.

Types of Investments

We recommend all types of securities and we do not necessarily recommend one particular type of security over another since each client has different needs and different tolerance for risk. Additionally, we may advise you on any type of investment that we deem appropriate based on your stated goals and objectives. We may also provide advice on any type of investment held in your portfolio at the inception of our advisory relationship. We may allow you to request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

Assets Under Management

As of December 30, 2016, we provide continuous management services for \$229,514,463 in client assets on a discretionary basis, and \$273,354,978 in client assets on a non-discretionary basis

Item 5 Fees and Compensation

Wealth Management Services

Our fee for wealth management services is based on a percentage of your assets we manage and is set forth in the following fee schedule evidencing our maximum fees subject to negotiation:

<u>Assets Under Management</u>	<u>Annual Fee</u>
First \$250,000	1.50%
Next \$250,000	1.00%
Next \$500,000	1.00%
Over \$1,000,000	1.00%

Our fee will be payable quarterly in advance. The first payment is due payable upon the execution of the Portfolio Management Agreement, and will be assessed pro-rata in the event the agreement is executed other than the first day of the new calendar quarter. Subsequent payments are due and will be assessed on the first day of each calendar quarter based on the value of the portfolio as of the last day of the previous calendar quarter.

At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. For example, we may combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts. Combining account values may increase the asset total, which may result in you r paying a reduced advisory fee based on the available breakpoints in our fee schedule stated above.

We will deduct our fee directly from your account through the qualified custodian holding your funds and securities. We will deduct our advisory fee only when the following requirements are met:

- You provide our firm with written authorization permitting the fees to be paid directly from your account held by the qualified custodian.
- We send you an invoice showing the amount of the fee, the value of the assets on which the fee is based, and the specific manner in which the fee was calculated.
- The qualified custodian agrees to send you a statement, at least quarterly, indicating all amounts dispersed from your account including the amount of the advisory fee paid directly to our firm.

Either party may terminate the management agreement within five days of the date of acceptance without penalty to you. After the five-day period, either party may terminate the management agreement upon 30 days written notice to the other. The management fee will be pro-rated for the quarter in which the cancellation notice was given and any unearned fees will be returned to you.

Fees for LPL Advisory Programs

The account fee charged to the client for each LPL advisory program is negotiable, subject to the following **maximum** account fees:

GWP	1.35%***
Manager Access Select	3.00%
PWP	2.50%
MWP	2.83%*

*The MWP account fee consists of an LPL program fee, a strategist fee (if applicable) and an advisor fee of up to 2.00%. Accounts remaining under the legacy fee structure may be charged one aggregate account fee, for which the maximum account fee is 2.50%. See the MWP program brochure for more information.

***GWP Managed Service clients are charged an account fee consisting of an LPL program fee of 0.35% and an advisor fee of up to 1.00%. In the future, a strategist fee may apply. However, LPL Research currently serves as the sole portfolio strategist and does not charge a fee for its services. FutureAdvisor is compensated directly by LPL for its services, including the Algorithm and related software, through an annual sub-advisory fee (tiered based on assets under management by FutureAdvisor, at a rate ranging from 0.10% to 0.17%). As each asset tier is reached, LPL's share of the compensation shall increase and clients will not benefit from such asset tiers.

GWP Educational Tool provides access to sample recommendations at no charge to users. However, if users decide to implement sample recommendations by executing trades, they will be charged fees, commissions, or expenses by the applicable broker or adviser, as well as underlying investment fees and expenses. Account fees are payable quarterly in advance.

Excluding GWP, LPL serves as program sponsor, investment advisor and broker-dealer for the LPL advisory programs. In the Managed Service of GWP, LPL is appointed by each client as custodian of account assets and broker-dealer with respect to processing securities transactions for the accounts. In general, FutureAdvisor, in its capacity as investment advisor, will submit transactions through LPL; however, FutureAdvisor may choose to execute transactions through a broker-dealer other than LPL, subject to its duty to seek to achieve best execution. When securities transactions are effected through LPL, there are no brokerage commissions charged to the account. If FutureAdvisor chooses to execute a transaction through a broker-dealer other than LPL, the execution price may include a commission or fee imposed by the executing broker-dealer. In evaluating whether to execute a trade through a broker-dealer other than LPL, Future Advisor will consider the fact that the account will not be charged a commission if the transaction is effected through LPL.

Gerber Kawasaki Inc. and LPL may share in the account fee and other fees associated with program accounts. Associated persons of Gerber Kawasaki Inc. may also be registered representatives of LPL.

Potential Conflicts of Interest

Advisor receives compensation as a result of a client's participation in an LPL program. Depending on, among other things, the type and size of the account, type of securities held in the account, changes in its value over time, the ability to negotiate fees or commissions, the historical or expected size or number of transactions, and the number and range of supplementary advisory and client-related services provided to the client, the amount of this compensation may be more or less than what the Gerber Kawasaki Inc. would receive if the client participated in other programs, whether through LPL or another sponsor, or paid separately for investment advice, brokerage and other services.

The account fee may be higher than the fees charged by other investment advisors for similar services. For instance, FutureAdvisor offers direct-to-consumer services similar to GWP. Therefore, clients could generally pay a lower advisory fee for algorithm-driven, automated ("robo") investment advisory services through FutureAdvisor or other robo providers. However, clients using such direct robo services will forgo opportunities to utilize LPL-constructed model portfolios or to work directly with a financial advisor.

Clients should consider the level and complexity of the advisory services to be provided when negotiating the account fee (or the advisor fee portion of the account fee, as applicable) with Gerber Kawasaki Inc. With regard to accounts utilizing third-party portfolio managers under aggregate, all-in-one account fee structures (including MAS, PWP and the legacy MWP fee structure), because the portion of the account fee retained by Gerber Kawasaki Inc. varies depending on the portfolio strategist fee associated with a portfolio, Gerber Kawasaki Inc. has a financial incentive to select one portfolio instead of another portfolio.

Financial Planning Services

We charge a flat fee based on our hourly rate of \$250 for financial planning services, which generally ranges between \$250 and \$2,500. The fee is negotiable depending upon the complexity and scope of the plan, your financial situation, and your objectives. An estimate of the total time/cost will be determined at the start of the advisory relationship. Our fixed fee services include, but are not limited to, the following:

- Comprehensive Financial Planning (10 hours);
- 401(k) review (2 hours)
- Portfolio Makeover (2 hours)
- Education Planning (2 hours)
- Insurance Analysis (2 hours)
- Small Business Planning (2 hours)

- Financial Check-up (2 hours)
- Financial Education Seminars and Workshops (1 hour)

Fees are due at the inception of the advisory relationship. In certain circumstances, we may require that you pay 50% of the fee in advance and the remaining portion upon the completion of the services rendered. In either circumstance, we will not require prepayment of a fee more than six months in advance and in excess of \$500.

You may terminate the financial planning agreement by providing written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the agreement. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Selection of Other Advisers

We do not charge you a separate fee for the selection of other advisers. We will share in the advisory fee you pay directly to the MM. The advisory fee you pay to the MM is established and payable in accordance with the brochure provided by each MM to whom you are referred. These fees may or may not be negotiable. Our compensation may differ depending upon the individual agreement we have with each MM. As such, a conflict of interest exists where our firm or persons associated with our firm has an incentive to recommend one MM over another MM with whom we have more favorable compensation arrangements or other advisory programs offered by MMs with whom we have less or no compensation arrangements.

You will be required to sign an agreement directly with the recommended MM(s). You may terminate your advisory relationship with the MM according to the terms of your agreement with the MM. You should review each MM's brochure for specific information on how you may terminate your advisory relationship with the MM and how you may receive a refund, if applicable. You should contact the MM directly for questions regarding your advisory agreement with the MM.

Pension Consulting Services

Our advisory fees for these customized services will be negotiated with the plan sponsor or named fiduciary on a case-by-case basis.

Either party to the pension consulting agreement may terminate the agreement upon 30 days written notice to the other party. The pension consulting fees will be prorated for the quarter in which the termination notice is given and any unearned fees will be refunded to the client.

Additional Fees and Expenses

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through which your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the "Brokerage Practices" section of this Disclosure Brochure.

Any material conflicts of interest between you and our firm, or our employees are disclosed in this Disclosure Brochure. If at any time, additional material conflicts of interest develop, we will provide you with written notification of the material conflicts of interest or an updated Disclosure Brochure.

Compensation for the Sale of Securities or Other Investment Products

Persons providing investment advice on behalf of our firm are registered representatives with LPL Financial LLC ("LPL"). In their capacity as registered representatives, these persons will receive commission-based compensation in connection with the purchase and sale of securities, including 12b-1 fees for the sale of investment company products.

These persons are also licensed as independent insurance agents and will earn commission-based compensation for selling insurance products.

Compensation earned by these persons in their capacities as registered representatives and/or insurance agents is separate and in addition to our advisory fees. These practices present a conflict of interest because persons providing investment advice on behalf of our firm who are registered representatives and/or insurance agents may have an incentive to effect securities transactions or recommend insurance products for the purpose of generating commissions. You are under no obligation, contractually or otherwise, to purchase securities products or insurance products through any person affiliated with our firm.

IRA Rollover Considerations

As part of our investment advisory services to you, we may recommend that you withdraw the assets from your employer's retirement plan and roll the assets over to an individual retirement account ("IRA") that we will manage on your behalf. If you elect to roll the assets to an IRA that is subject to our management, we will charge you an asset based fee as set forth in the agreement you executed with our firm. This practice presents a conflict of interest because persons providing investment advice on our behalf have an incentive to recommend a rollover to you for the purpose of generating fee based compensation rather than solely based on your needs. You are under no obligation, contractually or otherwise, to complete the rollover. Moreover, if you do complete the rollover, you are under no obligation to have the assets in an IRA managed by our firm.

Many employers permit former employees to keep their retirement assets in their company plan. Also, current employees can sometimes move assets out of their company plan before they retire or change jobs. In determining whether to complete the rollover to an IRA, and to the extent the following options are available, you should consider the costs and benefits of:

An employee will typically have four options:

1. Leaving the funds in your employer's (former employer's) plan.
2. Moving the funds to a new employer's retirement plan.
3. Cashing out and taking a taxable distribution from the plan.
4. Rolling the funds into an IRA rollover account.

Each of these options has advantages and disadvantages and before making a change we encourage you to speak with your CPA and/or tax attorney.

If you are considering rolling over your retirement funds to an IRA for us to manage here are a few points to consider before you do so:

1. Determine whether the investment options in your employer's retirement plan address your needs or whether you might want to consider other types of investments.
 - a. Employer retirement plans generally have a more limited investment menu than IRAs.
 - b. Employer retirement plans may have unique investment options not available to the public such as employer securities, or previously closed funds.

2. Your current plan may have lower fees than our fees.
 - a. If you are interested in investing only in mutual funds, you should understand the cost structure of the share classes available in your employer's retirement plan and how the costs of those share classes compare with those available in an IRA.
 - b. You should understand the various products and services you might take advantage of at an IRA provider and the potential costs of those products and services.
3. Our strategy may have higher risk than the option(s) provided to you in your plan.
4. Your current plan may also offer financial advice.
5. If you keep your assets titled in a 401k or retirement account, you could potentially delay your required minimum distribution beyond age 70.5.
6. Your 401k may offer more liability protection than a rollover IRA; each state may vary.
 - a. Generally, federal law protects assets in qualified plans from creditors. Since 2005, IRA assets have been generally protected from creditors in bankruptcies. However, there can be some exceptions to the general rules so you should consult with an attorney if you are concerned about protecting your retirement plan assets from creditors.
7. You may be able to take out a loan on your 401k, but not from an IRA.
8. IRA assets can be accessed any time; however, distributions are subject to ordinary income tax and may also be subject to a 10% early distribution penalty unless they qualify for an exception such as disability, higher education expenses or the purchase of a home.
9. If you own company stock in your plan, you may be able to liquidate those shares at a lower capital gains tax rate.
10. Your plan may allow you to hire us as the manager and keep the assets titled in the plan name.

It is important that you understand the differences between these types of accounts and to decide whether a rollover is best for you. Prior to proceeding, if you have questions contact your investment adviser representative, or call our main number as listed on the cover page of this brochure.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Item 7 Types of Clients

We offer investment advisory services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, and other business entities.

In general, we do not require a minimum dollar amount to open and maintain an advisory account; however, we have the right to terminate your Account if it falls below a minimum size which, in our sole opinion, is too small to effectively manage.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Our Methods of Analysis and Investment Strategies

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

Fundamental Analysis - involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience and expertise of the company's management, and the outlook for the company and its industry. The resulting data is used to measure the true value of the company's stock compared to the current market value.

Risk: The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Technical Analysis - involves studying past price patterns, trends, and interrelationships in the financial markets to assess risk-adjusted performance and predict the direction of both the overall market and specific securities.

Risk: The risk of market timing based on technical analysis is that our analysis may not accurately detect anomalies or predict future price movements. Current prices of securities may reflect all information known about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

Long-Term Purchases - securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.

Risk: Using a long-term purchase strategy generally assumes the financial markets will go up in the long-term which may not be the case. There is also the risk that the segment of the market that you are invested in or perhaps just your particular investment will go down over time even if the overall financial markets advance. Purchasing investments long-term may create an opportunity cost - "locking-up" assets that may be better utilized in the short-term in other investments.

Short-Term Purchases - securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short-term price fluctuations.

Risk: Using a short-term purchase strategy generally assumes that we can predict how financial markets will perform in the short-term which may be very difficult and will incur a disproportionately higher amount of transaction costs compared to long-term trading. There are many factors that can affect financial market performance in the short-term (such as short-term interest rate changes, cyclical earnings announcements, etc.) but may have a smaller impact over longer periods of times.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

Tax Considerations

Our strategies and investments may have unique and significant tax implications. However, unless we specifically agree otherwise, and in writing, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, we strongly recommend that you consult with a tax professional prior to and throughout the investing of your assets.

Moreover, as a result of revised IRS regulations, custodians and broker-dealers will begin reporting the cost basis of equities acquired in client accounts on or after January 1, 2011. Your custodian will default to the FIFO (First-In First-Out) accounting method for calculating the cost basis of your investments. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, please provide written notice to our firm immediately and we will alert your account custodian of your individually selected accounting method. Please note that decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the "Advisory Business" section in this Brochure, we may recommend various types of investments as appropriate for you since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

Item 9 Disciplinary Information

Gerber Kawasaki Wealth & Investment Management has been registered and providing investment advisory services since 2010. Neither our firm nor any of our management persons has any reportable disciplinary information.

Item 10 Other Financial Industry Activities and Affiliations

Registrations with Broker Dealer

Persons providing investment advice on behalf of our firm may be separately licensed as registered representatives of LPL. These persons are also independent insurance agents. As such, these persons, in their separate capacity as either a registered representative and/or insurance agent, will be able to effect securities transactions and/or purchase insurance and insurance-related investment products (insurance) for your account, for which they will receive separate and customary compensation. While these persons endeavor at all times to put the interest of her clients first as part of our firm's fiduciary duty, you should be aware that the receipt of additional compensation itself creates a conflict of interest, and may affect their judgment when making recommendations.

Insurance Agency

Gerber Kawasaki Wealth & Investment Management is an insurance agency licensed with the State of California. As such, Associated Persons of our firm may be licensed to sell insurance products through our firm. In this capacity as an insurance agent, such individuals may sell insurance products to advisory clients. These individuals will receive normal and customary commissions as a result of selling insurance as well as advisory fees for providing investment advice through our firm. Clients are hereby advised that such commissions and advisory fees are separate and apart from the fees

charged by us. You are under no obligation, contractually or otherwise, to purchase insurance products or receive investment advice through these associated persons in their separate capacities as insurance agents and/or Associated Persons of our firm.

These arrangements present a conflict of interest because we may have a financial incentive to recommend our insurance services. While we believe that compensation charged are competitive, such compensation may be higher than fees charged by other firms providing the same or similar services. You are under no obligation to use our insurance services and may obtain comparable services and/or lower fees through other firms.

Recommendation of Other Advisers

We may recommend that you use a third party adviser ("MM") based on your needs and suitability. We may receive compensation from the MM for recommending that you use their services. These compensation arrangements present a conflict of interest because we have a financial incentive to recommend the services of the third party adviser. You are not obligated, contractually or otherwise, to use the services of any MM we recommend.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Description of Our Code of Ethics

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Persons associated with our firm are also required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Our Code of Ethics is available to you upon request. You may obtain a copy of our Code of Ethics by contacting us at 310.399.6397.

Participation or Interest in Client Transactions

Neither our firm nor any of our Associated Persons has any material financial interest in client transactions beyond the provision of investment advisory services as disclosed in this Brochure.

Personal Trading Practices

Our firm or persons associated with our firm may buy or sell the same securities that we recommend to you or securities in which you are already invested. A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To eliminate this conflict of interest, it is our policy that neither our Associated Persons nor we shall have priority over your account in the purchase or sale of securities.

Item 12 Brokerage Practices

We consider the quality of the brokerage services provided by the brokerage firm that we recommend to you, including the value of the firm's reputation, execution capabilities, commission rates, and responsiveness to our clients and our firm. Price is not the sole factor we consider in evaluating best execution.

We recommend the brokerage and custodial services of LPL, a securities broker-dealer and a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. We believe that LPL provides quality execution services for you at competitive prices. In recognition of the value of the services LPL provides, you may pay higher commissions and/or trading costs than those that may be available elsewhere.

Research and Other Soft Dollar Benefits

We do not receive additional brokerage products and services that considered to have been paid for with "soft dollars."

Brokerage for Client Referrals

We do not receive client referrals from broker-dealers in exchange for cash or other compensation, such as brokerage services or research.

Directed Brokerage

Persons providing investment advice on behalf of our firm who are registered representatives of LPL will recommend LPL to you for brokerage services. These individuals are subject to applicable rules that restrict them from conducting securities transactions away from LPL unless LPL provides the representative with written authorization to do so. Therefore, these individuals are generally limited to conducting securities transactions through LPL. It may be the case that LPL charges higher transactions costs and/or custodial fees than another broker charges for the same types of services. If transactions are executed through LPL, these individuals (in their separate capacities as registered representatives of LPL) may earn commission-based compensation as result of placing the recommended securities transactions through LPL. This practice presents a conflict of interest because these registered representatives have an incentive to effect securities transactions for the purpose of generating commissions. You may utilize the broker-dealer of your choice and have no obligation to purchase or sell securities through such broker as, we recommend. However, if you do not use LPL, we may not be able to accept your account. Please see the *Fees and Compensation* section in this brochure for more information on the compensation received by registered representatives who are affiliated with our firm.

Block Trades

We do not combine multiple orders for shares of the same securities purchased for advisory accounts we manage (the practice of combining multiple orders for shares of the same securities is commonly referred to as "block trading"). Accordingly, you may pay different prices for the same securities transactions than other clients pay. Furthermore, we may not be able to buy and sell the same quantities of securities for you and you may pay higher commissions, fees, and/or transaction costs than other clients.

Item 13 Review of Accounts

For investment management services, your account is reviewed at least quarterly. Additionally, the Associated Person servicing your account will attempt to conduct a formal review with you at least annually.

Additional reviews may be conducted based on various circumstances, including, but not limited to:

- contributions and withdrawals,
- year-end tax planning,
- market moving events,
- security specific events, and/or,

- changes in your risk/return objectives.

We will not provide you with additional or regular written reports in conjunction with account reviews. You will receive trade confirmations and monthly or quarterly statements from your account custodian(s).

Item 14 Client Referrals and Other Compensation

We may receive economic benefits in the form of sponsorships and/or marketing reimbursements from non-affiliated third-parties. As part of our fiduciary duty, we endeavor at all times to put the interests of our clients first. While these benefits do not influence the investment advice we offer to you, we nevertheless feel that it should be disclosed.

Furthermore, through the normal course of our business, we have received forgivable loans from our broker-dealer. The forgivable loans are provided to assist in the growth of our firm, and are not dependent on providing a certain amount of business to the broker-dealer.

We do not compensate any individual or firm for client referrals.

Please refer to the *Brokerage Practices* section above for disclosures on research and other benefits we may receive resulting from our relationship with LPL.

As disclosed under the "Fees and Compensation" section in this Brochure, persons providing investment advice on behalf of our firm are licensed insurance agents, and are registered representatives with LPL, a securities broker-dealer. For information on the conflicts of interest this presents, and how we address these conflicts, please refer to the "Fees and Compensation" section.

Item 15 Custody

We directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your accounts causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy. If you have a question regarding your account statement or if you did not receive a statement from your custodian, please contact us at 310.399.6397.

Item 16 Investment Discretion

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. In our sole discretion, we may allow you to limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. Please refer to the *Advisory Business* section in this brochure for more information on our discretionary management services.

If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s). You have an unrestricted right to decline to implement any advice provided by our firm on a non-discretionary basis.

Item 17 Voting Client Securities

Proxy Voting

We will not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights. If you own shares of common stock or mutual funds, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitation to vote proxies.

Item 18 Financial Information

We are not required to provide financial information to our clients because we do not:

- require the prepayment of more than \$1,200 in fees and six or more months in advance, or
- take custody of client funds or securities, or
- have a financial condition that is reasonably likely to impair our ability to meet our commitments to you.

Item 19 Requirements for State Registered Advisers

Our firm is registered with the SEC; therefore, no response is required for this item.

Item 20 Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any non affiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees, who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will never sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact us at 310.399.6397, if you have any questions regarding this policy.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account.
